

# Booa Development 2021 – Maximilian Krenn

---

App and Web Features :

Versions :

- iOS
- Android
- Web Version
- Landingpage in English and German
- promo Flyer
- Pitch - promo video from Booa App
- Own interface and colors
- German and English
- User can search other booa app users and contact them
- User can send message to other messengers like WhatsApp / Signal/ Telegram/ from booa and send

- Depends on AWS Aurora

- App Admin ( Max for example) can send a push info( text or Video or Image) to all App Users in real time! Update info or News!

- Supports Admob ads (Banner, Interstitial, Native)

- API - in our App ( example - we create the second app calling Séparée ! So the User can send Messages or others from BooA to Séparée and back) . Same for the third App we create maybe!
